

Astrological Research

Abortions and Miscarriages

Cemal Cicek

18 September 2020

Preface

The astrologers must find at least for the important events planetary pictures which have validity for each and forever. This is very important because the astrologers will better understand the meanings of the planets.

Ψ/Ω is separation-midpoint. If this is combined with Υ , is then separation from the child.

When someone in the radix has the connection between planets Υ , Ψ , Ω , it's dangerous for pregnancy, there may be miscarriages and abortions.

Possible variations : $\Upsilon/\Psi = \Omega$; $\Upsilon/\Omega = \Psi$; $\Psi/\Omega = \Upsilon$; $\Upsilon/\Psi = \Upsilon/\Omega$; $\Upsilon/\Psi = \Psi/\Omega$ etc.

The planetary picture $\♂/\♄$ could also either in Radix or in Progressions>Returns come to it, because it also means the death of a living being.

If someone in the Radix has these planetary pictures and wants a safe birth, then she should take care that the above planetary pictures by the returns and/or progressions are not activated.

Used :

1-Astrology Software :

a-Zet Astrology Software

b-Nova Chartwheels¹

1-Sidereal zodiac (Krishnamurti Ayanamsa), Mean Node.

23°45'56" for Year 2000. Speed of precession is 50.2388475.

Secondary Progression : 1 sidereal day = 1 sidereal year

2- Harmonic 256

¹ <https://alabe.com/novacw.html>

Nova Chartwheels :

I would like to introduce Nova Chartwheels here, for those who have not read my work "Multiple Sclerosis". Nova is very helpful for the presentation of 2ⁿ Harmonics , because you can see other harmonics points very well with additional black dots.

Picture below shows Harmonic 256 (1° 24' 22.5").

Opposition point of H 256 is the harmonic 512,

square position of H 256 is H 1024,

exactly between H 256 and H 1024 is H 2048

and between H 256 and H 2048 is H 4096.

Man can still take between two Harmonic point as another Harmonic point.

In this work I used Nova Chartwheels only for Natal positions, because with Nova you can not use a user progression rate and the returns can not be represented as a bi-wheel.

Amos, Tori

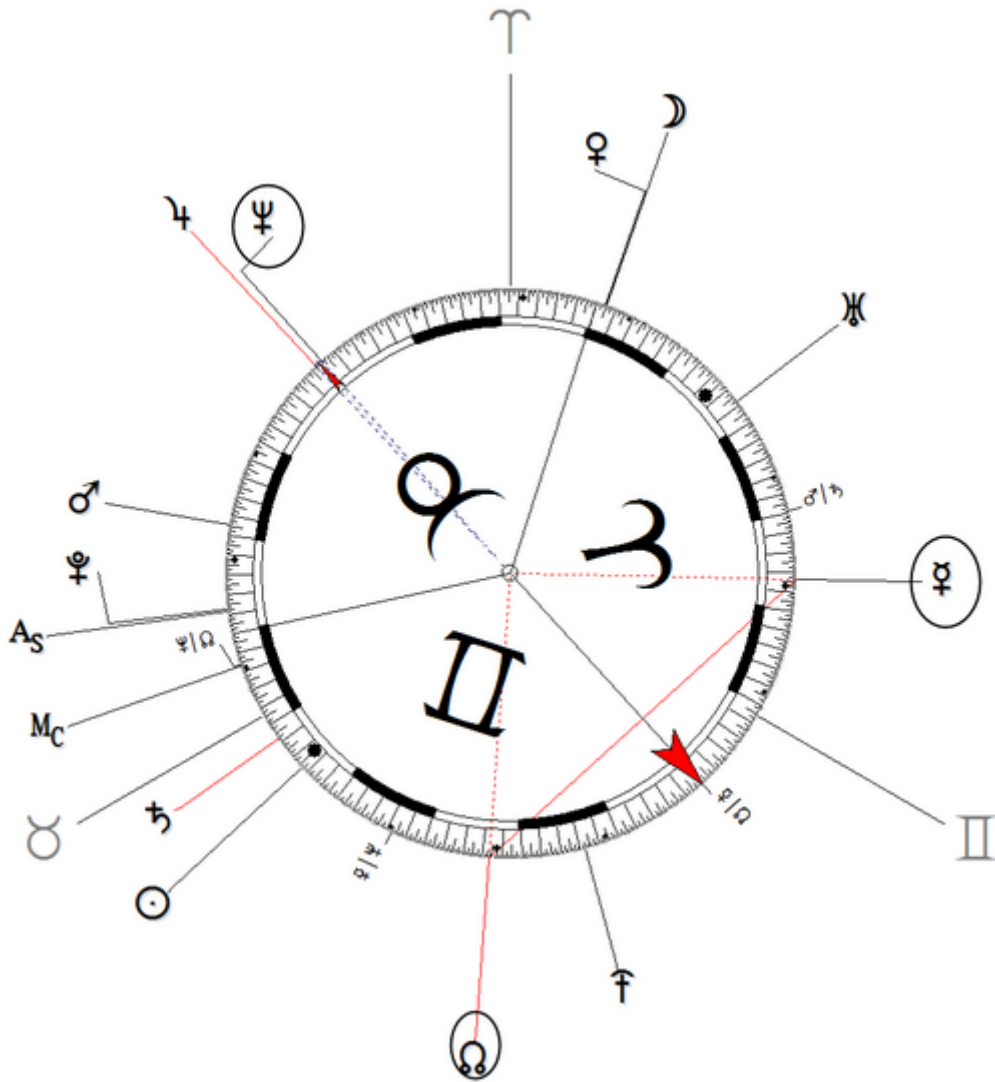

22 August 1963 at 13:10 (= 1:10 PM)Newton, North Carolina, 35n40, 81w13

American singer-songwriter.

In July 1969, Ted Kennedy was involved in a car accident at a bridge on Chappaquiddick Island in Massachusetts that resulted in the death of his passenger, Mary Jo Kopechne. Although pregnant and confined to bed in the wake of two previous miscarriages, Joan attended Kopechne's funeral. Three days later, she stood beside her husband in a local court when he pleaded guilty to leaving the scene of an accident. She suffered a third miscarriage shortly thereafter.
